

### **EYE MAX 900 SERIES PLAY BACK INSTRUCTIONS**

1. *Left click* on search tab located in the bottom right corner of screen.
2. All dates with recorded data will be marked in **BOLD NUMBERS**. Locate date you wish to view and click on it.
3. Select a time from 'time bar' on bottom of screen ranging for 0-23 hrs. (Time bar is done in military time format). Click on the time you wish to view, then *push play* button.
4. Play back will now start.

### **EYE MAX 900 SERIES BACK UP INSTRUCTIONS**

1. *Click search* button, and locate **BACK UP TAB** located in the middle of screen on far right.
  - To Note: If you are in play back mode there is no need to click search tab - Go straight to **BACK UP TAB**
2. Back up screen will pop up. *Click Next* tab and choose 'file type'
  - Clicking EXE file will only allow back up from one camera at a time
  - If you would like to back up multiple cameras, select DFS tab (DVR software disk is required to play back media on an outside computer)
  - If burning to a CD-R or DVD-R, click on the box labeled 'External CD Burning Program'. If using a USB do not check this box
3. Enter Date, Start Time, End Time. If you have a password, this same password will also be needed to view the disk (We recommend you do not fill in password info)
  - *Click browse* tab associated with CD/DVD blank space select proper drive
  - *Click next*, and check boxes of all the cameras you want to back up
4. Confirm back up information & *click next*.
5. When status bar reads complete back up is finished. If using CD-R or DVD-R disk will automatically eject.
6. You may now remove Disk or USB.
